## DEATH HAS CLAIMED HIM.

DR. J. MAX WILLETT DEAD.

Was a Prominent Physician and One Who Has Ended a Life of Usefulness.

Dr. J. Max Willett died Friday morning at the residence of his father-in-law, Dan Roberts, Sr. Dr. Willett began his medical career in this county. He married Miss Ophelia Roberts and settled at Ekron. No man had wielded a greater influence in the little town; no man had warmer and truer friends, and all were loath to give him up when he left with his family to make his home in Tennessee.

His health began to fail there and with his family he moved to Colorado in the hope of regaining his health and strength. But the terrible disease was too much for him, and not a year did he remain in that place. Last week his wife accompanied by his brother, Rev. Arthur Willett and wife, arrived at Ekron with him. He was taken to Dr. Shacklett's for several days, but he was anxious to get on home and on the 9th he was moved to Mr. Dan Roberts.

Dr. Willett was one of the leading physicians and surgeons of Tennessee. In social life he was an agreeable companion, a most interesting conversationalist, exhibiting a familiar knowledge of all questions of interest and controversy. But alas! his giant like mind is no more. His stately step will no more resound in life. His dignified bearing and lavish liberality from the almost boundless store of his knowledge are swept away in death. His great soul rose superior to selfishness and that which gave him most pain was a realization that he lacked the means to satiate his boundless benevolence in endless beneficence.

Being surrounded by most all his loved ones his death was calm and peaceful. His last words were "The Lord loveth the ones he chasteneth." The family have the heart felt sympathy of the entire community. The funeral service was held at Buck Grove church the 17th and the remains were carried to the last resting place in our peaceful cemetery.

## You Can't Dodge Them

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs.

Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master. The body must be well supplied with fat. The danger comes when the blood is poor and the body is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

**Scott's Emulsion**

of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold.

It's this nourishing, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value in all wasting and exhausting diseases.

Get and get so, all druggists. SCOTT & BOWNE, Chemists, New York.

Fortunate is the farmer who has the good sense to know when he has just enough land to care for properly.

Everybody should read the "editorials" in this, our own paper, and remember that a true-blue woman has been added to the editorial staff.

We will be very glad to see the letter from Herndon McGeehee mentioned in last week's issue, as he is very closely identified with this community.

Some people would gain decidedly more by adopting the old business motto, "Live and Let Live," and not allow their greediness to swallow up their principle.

Ladies remember that Delft-ware at McGlothlin & Piggott's. Pudding pans, cake pans, tea kettles, coffee pots, cup and saucers (unbreakable) stew kettles, frying pans—everything the house-keeper needs.

The Ladies' Aid are always prime movers in some good work, and are now busy making a rag carpet for sale. Look out for something nice, energetic house-keepers, you will need this when the spring cleaning comes on.

Every real good farmer that takes pride in his various belongings will call and see McGlothlin & Piggott's full stock of all kinds of the best harness made and saddles that are made both for beauty and comfort.

Mr. and Mrs. Henry Herndon, who have been the successful proprietors of Doe Run springs for the past two seasons, will in all probability take charge of the famous old Grayson Springs this year. They have had liberal offers to go there.

Ladies, don't forget to see McGlothlin & Piggott's willow rockers if you want to enjoy the long lazy days that are coming, and you will need a new machine to do the spring sewing. They carry the kind you want, light running, either chain or lock stitch. Don't fail to see them.

H. M. Wills, an eloquent of Indianapolis, entertained a small audience at the college two evenings of last week. His recital of Riley's humorous productions captured the house, but the rendition of Benedict Arnold surpassed all expectations. Mr. Wills possesses extraordinary powers as a character delineator.

The slowly lengthening days are here and winter mingles with spring, and snow and frost and sunshine alternate with rain and inclement weather. It seems that we do not have the cold winters of long ago with their months of skating, sleighing and coasting, yet the frost king girds on his armor sometimes and gives us such a treat as the beautiful snow that fell on the 16th. It must have been an inspiration to some local poet.

"I was nearly dead with dyspepsia, tried doctors, visited mineral springs, and grew worse. I used Kodol Dyspepsia Cure. That cured me." It digests what you eat. Cures indigestion, sour stomach, heartburn and all forms of dyspepsia.—A. R. Fisher.

ELECTRIC CHAIR IN NEW JERSEY.

Bill Introduced at Trenton Doing Away With the Gallows.

Mr. Abbott of Hudson county introduced a bill this afternoon to substitute the electric chair for hanging in New Jersey.

He says public sentiment in favor of execution by electricity is growing rapidly, and sooner or later the gallows will have to be given up. Mr. Benny, also of Hudson county, put in a bill providing that in murder trials if a jury returns a verdict of murder in the first degree, accompanying the finding with the phrase, "Without capital punishment," the defendant's punishment shall be imprisonment for life.—N. Y. Sun.

### Beneficial.

Joseph Smart, county, was in town Monday. He has in 40 acres of wheat and said, "This recent snow was in every way advantageous to it."

### The Editor's Mistake.

Editors have their troubles. One of these men who presides over the destinies of a Western newspaper is mourning the loss of two subscribers. One writer asking how to raise his twins safely, while the other wanted to know how he might rid his orchard of grasshoppers. The answers went forward by mail, but by accident the editor put them into the wrong envelopes, so that the man with the twins received the answer: "Cover them carefully with straw and set fire to it, and then the little pests, after jumping in the flames for a few minutes, will be speedily settled."

And the man with the grasshoppers was told to "give castor oil and rub their gums with a bone."—Grit
